1.1 para 1: are too expensive (~~budget~~)

1.1 para 2: most of the time  $\rightarrow$  often

bulletize issues

thousands? seems high

bucks - colloquial

careful & gentle - awkward phrase

1.2

1.1 para 2: replace by user stories  $\frac{2}{3}$  or remove?  
feels too informal

also drop 1 smart's concern by the time  
you get here. say remainder of report

mention key contribs somewhere

technical challenges you overcame

2.2 these are not in style of user stories, more like  
feature lists

PS: bad break, almost  $\frac{1}{2}$  page is empty

Reg, Losin feel wasted; 2.3.3-6 are good. 2.3.7 also  
a waste

collaborators,

too colloquial,

needs more  
precision
