p23 Style over material? what does this mean?

p24. Table: For C? ranges are absurd, no -999 exists

missing adding jacket, layers...

Step 1 & 2 → Step 18?
↑ ~~capitalize~~ capitalize

two list or list of pairs? must be 1-1?

user customization of rules, scoring function?

Table 3.2 caption should be w/ Table not on next page

27, why red font?

how are points chosen?

| when are shoes, socks, belt

24. too many → infinite

how to deal w/ patterns?

again explain how scores for color pairing assigned

mood input? eg want bright sunny outfit

3.1.3.2.6 ← feels too indented. also this section seems like
a waste. are the tables read dynamically
from a server?

3.1.4 → what bugs? give concrete examples
span two applications? at what places do
you need this? camera?

3.2.4. can cache locally, retrieve updates
opportunistically from cloud

3.2.5 good, I like it

P39-40-41 ugly breaks

p42: awful justification in mid para.
consider using courier font for code
